

Craftin' by the Creek - Cambridge, Wisconsin

Come and preserve your most cherished memories or just let your creative juices flow in our spacious retreat overlooking the Koshkonong Creek. Guests can scrapbook or craft in the newly built addition and sleep in the 1860's solid brick home. Craftin' by the Creek is a great space for family & friends to gather.

The Creation Space

Enjoy nearly 700 square feet of creation space with eleven individual 'creation' stations. Each station measures 30" wide by 48" long, is supplied with full spectrum lighting and has easy access to plenty of power. In addition, the prep room is only steps away; here you can spread out those tools and supplies that need additional room. The creation space is set up in its own wing so you can create to your heart's content without disturbing those who go to bed early or sleep late! Craftin' by the Creek also has Wi-Fi, flat screen TV, an i-Pod docking station, a computer & printer, and two irons & ironing boards for your use.

Historic Home Accommodations

The four bedrooms will comfortably sleep up to eleven family and friends – with everyone getting their own twin bed; the home can accommodate up to twelve occupants (bunkbed). In addition, Craftin' by the Creek has two and a half baths; one on each of the three levels - convenient for both sleeping, and crafting. Finally, amenities such as bedding, towels, wash cloths, shampoo, conditioner and body wash, as well as a first floor washer & dryer are provided.

Not Your "Everyday" Kitchen

After enjoying a day of crafting, switch gears and take pleasure in preparing your meals in a beautiful, fully functional, custom kitchen with stainless steel appliances and solid surface countertops. Or bring your already prepared food and serve it buffet-style on over 25 lineal feet of counter space. The spacious, hand-crafted table seats eight with three additional seats at the breakfast bar. After dinner, fill the dishwasher so you can quickly get back to your crafting. The kitchen is fully stocked with all of the basic cookware and utensils needed to prepare, and enough tableware for up to 12 guests.

But, That's Not All . . .

In addition, guests can relax watching an unlimited number of movies (online service) in the theater room, lounge out on the large southern-facing deck (weather permitting), walk down by the creek or in one of the local parks, sit around the onsite campfire, or take a short walk for drinks and dinner at the local pub & grill.

Making a Reservation
